CE CE conformity marking

The manufacturer shall certify with an EC declaration of conformity, that the product complies with all applicable European Community Directives.

Old electrical appliances must not be disposed of together with the residual waste, but have to be disposed of separately.

The disposal at the communal collecting point via private persons is for free. The owner of old appliances is responsible to bring the appliances to these collecting points or to similar collection points.

With this little personal effort, you contribute to recycle valuable raw materials and the treatment of toxic substances.

Case A (With Mounting Hole Ready)

- ❶ Cut the hole according to desired size and shape

★ Refer to the instructions to find the cut-size

- ❷ Put the slidable springs on the bracket and slide the springs to adjust its position according to size of hole

Slidable Spring

- ❸ Insert the springs with bracket into the ceiling

- ❹ Connect the lamp with the bracket by the safe wire

- ❺ Connect the lamp to power supply, push the lamp directly into the bracket

- ❻ Installation is done

★ Self-Lock Inside

Case B (Without Mounting Hole)

- ❶ Fix the bracket on the ceiling

- ❷ Connect the lamp with the bracket by the safe wire, then connect the power supply, push the lamp directly into the bracket

- ❸ Clicking sound indicates the installation is done

★ Self-Lock Inside

How to Uninstall?

- ⊘ Don't take out the lamp from any one side of the self-lock area

If you do like this, the lamp will be damaged

- ⊘ Don't take out the lamp from any one side of the self-lock area

If you do like this, the lamp will be damaged

- ☑ Press one side of the lamp frame (perpendicular to bracket), then take out the lamp from the opposite side

Correct Method to Detach Bracket
